

DOCKET No. RUW-101

**IN THE CLAIMS**

1. (Currently Amended) A composition for soothing traumatic conditions of the skin comprising:
  - a. omega-3 fish oils having a total weight of up to about 3000 mg, consisting of gamma-linoleic acid (GLA) in an amount ranging from about 10% to about 40% by weight, eicosapentanoic acid (EPA) from molecularly distilled fish oil in an amount ranging from about 20% to about 60% by weight, and docosahexaenoic acid (DHA) from molecularly distilled fish oil an amount ranging from about 20% to about 60% by weight;
  - b. mixed tocopherols in an amount of up to about 20,000 IU;
  - c. lavender oil in an amount of up to about 1 mg;
  - d. about 120 ml of a pharmaceutically acceptable carrier,  
the composition being active against traumatic conditions of the skin.
2. (Cancelled)
3. (Original) The composition according to claim 1 wherein the pharmaceutically acceptable carrier is cocoa butter.
4. (Original) The composition according to claim 1 wherein
  - a. said 3-omega oils are present in a total weight ranging from about 500 mg to about 2000 mg, said gamma-linoleic acid is present in an amount ranging from about 15% to about 30% by weight, said eicosapentanoic acid from molecularly distilled fish oil is present in an amount ranging from about 30% to about 50% by weight, and said docosahexaenoic acid from molecularly distilled fish oil is present in an amount ranging from about 30% to about 50% by weight.

## DOCKET No. RUW-101

- b. said tocopherol is present in an amount between about 1000 IU and about 15000 IU;
  - c. said lavender oil is present in an amount up to about 600 mcg;
  - d. about 120 ml of pharmaceutically acceptable carrier.
5. (Original) The composition according to claim 1 wherein:
- a. said molecularly distilled 3-omega fish oils are present in a total weight of about 1000 mg, said gamma-linoleic acid is present in an amount of about 20% by weight; said eicosapentanoic acid from molecularly distilled fish oil is present in an amount of about 40% by weight; said docosahexaenoic acid from molecularly distilled fish oil is present in an amount of about 40% by weight;
  - b. said tocopherol is present in an amount of about 5600 IU;
  - c. said lavender oil is present in an amount of about 300 mcg;
  - d. in about 120 ml of pharmaceutically acceptable carrier.
6. (Original) The composition according to claim 5 wherein the tocopherol is alpha-tocopheryl acetate and the pharmaceutically acceptable carrier is cocoa butter.
7. (Currently Amended) A composition for soothing traumatic conditions of the skin comprising:
- a. omega-3 fish oils having a total weight of up to about 3000 mg, consisting of gamma-linoleic acid (GLA) in an amount ranging from about 10% to about 40% by weight, eicosapentanoic acid (EPA) from molecularly distilled fish oil in an amount ranging from about 20% to about 60% by weight, and docosahexaenoic acid (DHA) from molecularly distilled fish oil an amount ranging from about 20% to about 60% by weight;
  - b. mixed tocopherols in an amount of up to about 20,000 IU;

AMENDMENT

## DOCKET No. RUW-101

- c. lavender oil in an amount of up to about 1 mg;
- d. Sodium-PCA in an amount of up to about 1 g;
- e. about 120 ml of a pharmaceutically acceptable carrier,  
the composition being active against traumatic conditions of the skin.

8. (Original) The composition according to claim 7 wherein said Sodium PCA is present in an amount up to about 0.5 g.

9. (Original) The composition according to claim 8 wherein said Sodium PCA is present in an amount of about 0.25 g.

10. (Currently Amended) A composition for soothing traumatic conditions of the skin comprising:

- a. omega-3 oils having a total weight of up to about 3000 mg, consisting of gamma-linoleic acid (GLA) in an amount ranging from about 10% to about 40% by weight, eicosapentanoic acid (EPA) from molecularly distilled fish oil in an amount ranging from about 20% to about 60% by weight, and docosahexaenoic acid (DHA) from molecularly distilled fish oil an amount ranging from about 20% to about 60% by weight;
- b. mixed tocopherols in an amount of up to about 20,000 IU;
- c. lavender oil in an amount of up to about 1 mg;
- d. Methyl-Sulfonyl-Methane in an amount of about 6 g to about 18 g;
- e. about 120 ml of a pharmaceutically acceptable carrier,  
the composition being active against traumatic conditions of the skin.

11. (Original) The composition according to claim 10 wherein the Methyl-Sulfonyl-Methane is present in an amount of about 9 g to about 15 g.

12. (Original) The composition according to claim 10 wherein the Methyl-Sulfonyl-Methane is present in an amount of about 12 g.
